### **City prepares for Saturday delays at Central Ave., Magnolia Ave. and Brockton Ave. Intersections**

**RIVERSIDE, Calif.** – Weekend drivers should plan for delays near the intersection of Central and Magnolia Avenues. Traffic signal and lane closure delays will be from 10 p.m., this Saturday, until 9 a.m., Sunday, in order to improve traffic signal synchronization and minor intersection improvements.

Southbound Brockton Avenue traffic will be detoured to Magnolia Avenue via Beatty Drive, re-opening at Central. Northbound Brockton traffic will maintain two lanes to traffic.

The 4100 block of Beatty and Sunnyside Drive will remain accessible via Palm Avenue.

No lane closures are planned for Magnolia or Central Avenues.

Traffic signals will be turned off at the intersections of Magnolia and Central and at Brockton and Central. Stop signs will be posted to regulate traffic, resulting in a four-way stop intersection.

Traffic signals at the intersection of Magnolia and Brockton will operate with flashing red lights, resulting in a three-way stop intersection.

All businesses will remain accessible.

The intersection improvements are part of the City's Riverside Renaissance to improve traffic congestion. This project to improve traffic flow is expected to be complete in May 2009.

For more information, call the City of Riverside Call Center at (951) 826-5311.
